

Lighting Choices for Table Lamps & Pricing Information

Be sure to add to your lamp orders!!

Candles, liquid fuel, or batteries & chargers must be added to your orders as a separate item.

For candle lamps:

# TL100	Tea Light Bulk (500 per case) (Tea Lights burn approximately 4-5 hours)	\$86.00 per case
DL10	10-hr. votive Bulk (288 per case)	\$60.00 per case

For liquid fuel lamps:

# DL30LW	Bulk 30-hr. fuel cell (48 per case)	\$65.00 per case
# DL8	8-hr. fuel cell (will fit in candle lamps!)	\$122.00 per case of 180 cells

Rechargeable Battery Lamp Information:

Any liquid fuel lamp may also be used with a rechargeable battery cell. You must purchase the battery cell, bulb & charger unit additionally. The battery cells must be charged for approximately 8-10 hours (overnight) and then will hold a charge approximately 8 hours. We recommend always seeing

a sample of the battery lighting under the shade you are considering so you are aware of the amount of light.

Single Charger

30-Battery Charger

Prices

Standard System

#103	Battery Cell (standard)	\$34.38
#1490	Bulb (standard)	\$1.16
30	Battery Charger (standard)	\$458.48

TERMS & CONDITIONS

- **Minimum Order:** \$100 list or a \$5 net handling charge.
- Prices are **FOB factory**, 2748 S. Cobb Industrial Blvd., Smyrna, Georgia 30082 USA
- **Terms:** Net 30 days to credit approved accounts. Visa/MasterCard/American Express also accepted. 50% deposit required with custom orders.
- **Returns:** If a return is authorized, re-stocking charges will apply. Custom made merchandise is not returnable.
- **Claims:** Many shipments are handled by UPS. For any claims, please contact your local UPS office immediately and save the packaging. Contact Table Decor immediately. Claims will be denied by UPS & Table Decor if packaging is not kept intact for inspection. Freight claims should be filed with carriers promptly.
- **Sample Policy** – All samples will be charged but can be returned for merchandise credit in 30 days. We need a purchase order # for billing or a credit card #.
- **Rental** of items on cat. pg. 13 Events to Go is available – Contact factory.

TABLE LAMP INFORMATION

"C" Lamps use light sources 1-4

"LF" Lamps use light sources 5-7

"E" Lamps have bulb, socket, and cord

1 Tea light (burns 4-5 hours)
2 10-hour votive
3 8-hour liquid fuel cell
4 LED votive battery (uses 2 coin-style batteries)

5 30-hour liquid fuel cell
6 Standard brightness re-chargeable battery cell
7 Brighter re-chargeable battery cell

8 25-watt candelabra base bulb (for electric socket with cord)

DESIGN FEATURES

- * Fabric shades are hand-sewn out of flame-retardant fabrics. We make our own shades so fabric and/or trim changes are possible.
- * Bases are weighted and proportioned so all items are stable and not top heavy. Most lamps are sized so the total height does not impede the view or conversation flow across the table. Taller height pieces are also designed with that in mind — perfect for banquet tables.
- * Bases are silverplate, solid brass, satin pewter, antique bronze, lead crystal or hand painted faux antique finishes. Protective coatings are available on most finishes.

GENERAL ORDERING INFORMATION

"C" prefix indicates a smaller candle size glass insert that holds a candle, 8-hr. fuel cell or new LED flicker battery (avail. on all lamps)
 "LF" prefix indicates a larger glass cylinder insert that holds a larger liquid fuel cell or rechargeable battery (adds 3/4" to height)
 "E" prefix indicates electric lamp (adds 2 1/4" to height)
 Contact factory for pricing on electric lamps.

• **Custom orders** requiring any change in fabric, trim or colors outside of Stock line are subject to an **upcharge** & are non-cancelable.

Our computer stock #'s on table lamps indicate the following information:

Ex: **C-S52-3MS**

indicates type of light & glass insert size
 indicates lamp base style
 indicates shade style

* Please write your orders this way - prefix to indicate the type of light followed by the lamp base # and then the shade #.

• Shades & Bases as shown may be interchanged with no upcharge (use higher price of lamps you are interchanging)

Example: Base #S46 (from lamp S46 - 2E)
 Shade #138 (from lamp SAISH - 138)

New Stock # S46-138 List Price \$98.00

CANDLE SHADE KITS AND REPLACEMENT PARTS INFO:

12	C	CKIT-SHADE# _____	Any lampshade is available as a candle shade kit See pricing below!	
----	---	-------------------	---	---

Chandelyn Candle Shade Kits (to make candle lamps only)
A shade kit includes the entire package of candle lampshade, 1 "tea light" candle, Table Decor heat-resistant votive glass insert with 3 different sized rubber bushings (to accommodate different candlestick top openings).

How to Price:
Shade Price: As a general guideline on the shaded lamps, lamp shades are 1/2 the price of the complete lamp for the shade only. Plus add the following parts:

KG - 15	Pegged Votive (Heat resistant—this is much more durable than normal votive glass!)	\$12.80 each
RB 300 (thick), RB400 (thin), RB500 (medium)	Rubber Bushing (3 sizes available)	.50 each

*Manufacturer's note: Our heat-resistant votive glass insert with rubber bushing attachment securely attaches our shades to our bases. We can not guarantee this fit for a customer using their own candlesticks as lamp bases because of the variance in the top openings and shapes of a customer's candlestick. Care must be exercised by the customer to properly fit the votive glass insert and rubber bushing to a customer's own base, as well as making sure that the candlestick base is properly weighted and proportioned to support the candle shade kit.

Replacement parts on liquid fuel lamps:
Shade Price: Lamp shades are 1/2 the price of the complete lamp

CC2 (chrome), BRC2 (bronze), or BC2 (brass)	Silver, bronze or brass pegged fuel cup	\$9.75 each
RB 300 (thick), RB400 (thin), RB500 (medium)	Rubber Bushing (3 sizes available)	.50 each
GC 3.5"	3 1/2" H Glass Cylinder (heat resistant)	\$9.75 each

ELECTRIC LAMPS Lamps are shipped w/25 watt candelabra bulb unless noted

Electric Lamp Information:
They come standard with a 7 - 8' cord with a cord switch placed 12" from the lamp base and the cord coming out the side of the base. If special ordering for a restaurant job, please provide the following information & contact factory for a custom quote: *Where lamp will sit on table - near a wall or in the center. If in the center of a table many times we do not drill a side hole in the base but let the cord extend from underneath the base so it can be extended down into the table base, through the table top. We need to know cord length desired and how (or if) a switch is required.
